

Level 2 Footwear Manufacturer

End-Point Assessment

As part of Skills and Education Group Awards, we specialise in End-Point Assessments for the fashion and textiles sectors. Our experience with the standards for these industries means we know exactly what employers and apprentices need. We make the assessment process clear, easy to use and responsive, ensuring that employers and apprentices are fully supported throughout.

About the End-Point Assessment

Footwear manufacturers work in the manufacturing sector. Footwear includes shoes, boots, sports and dance footwear, trainers, and slippers. Footwear manufacturers may be small-scale operations making specialist or personalised footwear, through to large factories producing large runs of footwear.

Footwear manufacturers use tools and machinery to produce footwear to a specification. There are different processes involved in making footwear.

- Cutting material - usually leather.
- Preparation of materials
- Closing - sewing the upper part of the footwear
- Lasting - forming the shape of the footwear
- Attaching the sole and finishing - the final stage where for example, removable insoles and shoelaces are added and polishing occurs

Individuals may complete the footwear in full or in part.

Skills and Education Group Awards is an Ofqual-recognised End-Point Assessment Organisation. Ofqual regulates and quality-assures our end-point assessments through its regulatory framework. Apprenticeship standards are overseen in England by Skills England.
