

# Level 5 Bespoke Cutter and Tailor

## End-Point Assessment

As part of Skills and Education Group Awards, we specialise in End-point assessments for the fashion and textiles sectors. Our experience with the standards for these industries means we know exactly what employers and apprentices need. We make the assessment process clear, easy to use and responsive, ensuring that employers and apprentices are fully supported throughout.

### About the End-Point Assessment

Bespoke cutters and tailors are qualified artisans who need to be precise, have an eye for detail, a technical approach, good communication skills and work to a high standard of excellence.

A bespoke cutter is involved in liaising with clients to ascertain their individual requirements. They advise clients on the style, cloth and trim of their garment and have overall responsibility for the order. They construct the garment pattern and cut the components ready for assembly by the bespoke tailor. They also conduct fittings and record customer feedback as appropriate.

The bespoke tailor is responsible for assembling the garment, preparing the garment for fittings, amending the garment construction, completing final alterations and hand finishing the garment.

A bespoke tailor works closely with a bespoke cutter, as a team they create the tailored garment stage by stage, conducting fittings with the client along the way.

*Skills and Education Group Awards is an Ofqual-recognised End-Point Assessment Organisation. Ofqual regulates and quality-assures our end-point assessments through its regulatory framework. Apprenticeship standards are overseen in England by Skills England.*

### Fee:

£2000

### Maximum Funding:

£17000
