### Level 2 Urban Driver End-Point Assessment

As part of Skills and Education Group Awards, we specialise in the automotive sector. Our experience in this industry means we know exactly what employers and apprentices need. We make the assessment process clear, easy to use and responsive, ensuring that employers and apprentices are fully supported throughout.

#### About the End-Point assessment

This occupation is found in almost every industry across both private and public sectors. Urban drivers work in a variety of business areas that depend on the delivery and collection of goods by road. They typically work to a specified part of the country and their work pattern is normally time critical. Urban drivers often work in-house or part of the supply chain, ranging from small, independently owned companies to large organisations. Sites include for example retail, removals, construction, pallet, laundry, recycling, agriculture, and manufacturing.
