

Level 5 Learning & Development Consultant Business Partner

End-Point Assessment

Skills and Education Group Awards is now offering the Level 5 Learning and Development Consultant Business Partner end-point assessment standard. We have strong industry links with the sector, and significant experience in offering End-Point Assessments across various sectors using the assessment methods found in this standard.

About the End-Point Assessment

The Learning and development consultant business partner is accountable for ensuring Learning and development contributes to, and influences, improved performance in the workplace at an individual, team and organisation level. They also have the commercial responsibility to align learning needs with the strategic ambitions and objectives of the business. They are agents for change, influencing key stakeholders, making decisions and recommendations on what the business can or should do in a Learning and development context.

The learning and development consultant business partner will often have expertise and competence in a specific field whether it be technical, vocational or behavioural. They link the work they do to the context and strategic priorities of the business and measure the outcomes and impact of any learning interventions, to demonstrate a return on investment and expectation.

Skills and Education Group Awards is an Ofqual-recognised End-Point Assessment Organisation. Ofqual regulates and quality-assures our end-point assessments through its regulatory framework. Apprenticeship standards are overseen in England by Skills England.
