If there are larger and/or smaller versions of this qualification at the same Level, why should a learner take this particular one?

The Level 1 Certificate in Motor Vehicle Studies is part of a larger suite of Motor Vehicle Studies qualifications: Level 1 Award/Certificate/Diploma in Motor Vehicle Studies.

The necessity for this suite of varying sized qualifications is to ensure you who especially have no qualifications in this area, have an opportunity for incremental learning, to obtain the basic skills that can be built on to develop and progress further in Motor Vehicle Studies and provide an opportunity for individualised specific skills selection.

The Certificate is appropriate for you if you have completed the Award and committed to further learning through a bite sized approach, or for more motivated learners who are ready to make a longer commitment to learning, without first undertaking the smaller Award sized qualification. This Certificate allows you to develop across a broader area depending on your specific needs and interests, with the Diploma providing an extension on the Certificate.

The different size qualifications add depth and breadth to the specialism being studied without duplicating the learning covered by each qualification.

It is hoped that learners who successfully complete this qualification can move forward with increased confidence into further training.
